

**BDS**  
BarristerDigitalSolutions

At Barrister Digital Solutions (BDS) we believe Information is the medium of exchange used to gauge your mission's success. In today's business environment the demand that information be secure and instantly accessible is paramount.

BDS has over 15 years of experience working with clients across all industries and has a deep understanding of their specific needs. We have heavily invested in seasoned professionals and cutting-edge technologies to provide our clients comprehensive, cost-effective solutions. BDS maintains trusted partner status with the majority of the AM Law 100 firms as well as corporations and public sector clients.

## Why Choose Barrister Digital Solutions?

### Experienced | Resourceful | Agile | Secure

BDS can provide your organization with the highest quality, consulting, eDiscovery, Paper Discovery and Document Management Services available in the industry today. Our services facilitate instant and secure access to information, enabling increased productivity, performance and profits.

**Unparalleled In-House Experience:** Our experienced technical staff, will implement reliable, cost-effective production processes to address even the most complex technical requirements.

**Full Life-Cycle Litigation and Document Management Support:** BDS simplifies litigation and document management support by customizing our solutions to the specific needs of our clients. We manage your needs from Consulting and eDiscovery to Paper Discovery and Document Management Services.

**Innovative Discovery Tools:** BDS utilizes the best software the industry has to offer, leveraging longstanding relationships with Relativity™, and Pro to serve our clients, and continually evaluate emerging tools to address future challenges our clients may face.

**Operational Excellence & Superior Customer Service:** BDS has grown exponentially and thrived in competitive markets through our commitment to operational excellence and our unyielding focus on providing outstanding customer service.

**Industry Leading Security:** BDS provides a secure in house SSAE16/PCI DDS/SOC2 certified infrastructure, as well as on premise 24 hour camera surveillance, biometric and key card entry that protects our clients data and sensitive documents from the risk of any security threats.
