Litigation Consulting Data Processing Data Production

Managed Review Secure Hosting Hard Copy Discovery & Digital Printing

Differentiators

- ◆ Quality project management and workflow are keys to successful electronic discovery projects—BDS sets the highest standards in the industry for its commitment to first class project management, and our team of experts is always available around-the-clock delivering outstanding client service. With a no compromise approach, every phase of every project receives special attention to ensure the success of your mission. Whether your project involves complex data manipulation or simply copying and numbering documents, we begin by focusing our attention and resources on your objective.
- ◆ Secure Data Hosting Center in the heart of Washington, DC—BDS provides a secure in house SSAE-16/PCI DDS/SOC2 infrastructure as well as 24-7 camera surveillance, biometric and key card entry to protect our clients data from the risk of any security threats.
- ◆ Innovative Discovery Tools—BDS partnering with kCura/Relativity and IPro allows our experienced professionals to utilize the tools necessary to provide efficient workflows and processes.

Sample Past Performance

- ◆ Covington— BDS provides litigation consulting, data management, data production and paper discovery services to the firms consumer protection litigation attorneys working on ITC matters.
- ◆ DOJ— BDS provides coordination with the DOJ, Anti-Trust and Consumer Protection Divisions, to consult and outline electronic discovery data management, workflows and procedures. Production deliverables, electronic and hard copy, are provided as required by the Department of Justice Standard Specifications for Production of ESI.
- ◆ US ARMY—BDS provides consulting and production deliverables to the US Army Legal Service Agency (US Army—LSA) for Armed Services Board of Contract litigation matters. Deliverables include, but are not limited to, conversion of data from native format to US Army—LSA specified production format.
